

REMARKS

In the Office Action, claims 1-17 and 25-26 were pending. Claims 1 and 25 are amended to correct a typographical error. Reconsideration and allowance of the pending claims is respectfully requested in view of the following discussion.

Claim 1-17 and 25-26 stand rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 6,408,043 to Hu et al. in view of U.S. Patent No. 5,391,199 to Ben-Haim and in further view of U.S. Publication No. 2004/0122787 to Avinash et al.

Applicant indicates the present Application No. 10/816,641 and U.S. Publication No. 2004/0122787 to Avinash et al. were, at the time the invention of Application No. 10/816,641 was made, owned by, or subject to an obligation of assignment to General Electric Company. U.S. Publication No. 2004/0122787 to Avinash et al. is available as prior art only under 35 U.S.C. 102(e) or (g). In view of this limitation and in view of 103(c), then U.S. Publication No. 2004/0122787 to Avinash et al. does not preclude patentability under 35 U.S.C. 103(a). See MPEP 706.02(1)(2). Reconsideration and allowance of claims 1-17 and 25-26 is respectfully requested.

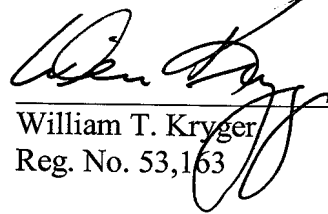

CONCLUSION

Applicant believes that the present application is now in condition for allowance. Favorable reconsideration of the pending claims in the application is respectfully requested.
